

WinPV@PVSEC-27, Special session of Women in Photovoltaics at PVSEC-27

This special session on Women in Photovoltaics is organized as a showcase of active female researchers in different technological field. The session will be hold to share female researcher's achievement, efforts on R&D and to promote net-working activities. Participation is not limited to female researchers.

Date 10:30-12:00, 14th Nov. 2017

Venue Convention Hall 6, 2F

Co-hosted by

- Division of Women in Photovoltaics, 175th Committee on Innovative Photovoltaic Power Generating Systems, University-Industry Cooperative, Research Committees, Japan Society for the Promotion of Science
- Gender Equality Committee, Japan Society of Applied Physics
- PVSEC-27

Sponsor: RTS Corporation, Tokyo, Japan

Agenda

Chair: Ms. Mayumi Matsumoto, University of Tokyo

Ms. Tomoko Yanagisawa, Tanaka Kikinzoku Kogyo

Greeting: Ms. Izumi KAIZUKA, RTS Corporation

Keynote speech

10:30: Dr. Sarah Krutz, NREL, USA

"Perspectives on research pathways: Seeking breakthroughs versus looking for the path through the forest"

Short Presentation following discussion

10:50: Dr. Toshie Kunii, Panasonic, Japan

"Recent Progress of High Efficiency Silicon Heterojunction Solar Cells in Panasonic"

11:00: Dr. Veronica Bermudez, Solar Frontier, Japan

"What is needed for a 25% device efficiency in CIGS-PV?"

11:10: Ms. Hiromi Tobita, JET, Japan

"International Standardization Activities in PV"

11:20: Dr. Amornrat Limmanee, NECTEC, Thailand, "Towards sustainable development of solar PV in Thailand: The role of science, technology and innovation"

11:30: Dr. Anna J. Carr, ECN, The Netherlands

"The best career under the sun!"

11:40: Question and discussion
